

Joint Action on integrating prevention, testing and linkage to care strategies across HIV, viral hepatitis, TB and STIs in Europe

ANNOUNCEMENT: INTEGRATE SYMPOSIUM IN CONJUNCTION WITH AIDS 2018, JULY 25, 2018, AMSTERDAM

"...HIV co-infections are cross-border health threats of Europe that disproportionately affect vulnerable populations. Migrants, homeless and prisoners are at increased risk for co-infections while also at risk for being lost within the continuum of care..."

Are you going to AIDS 2018? We are excited to invite you to the **EU-co-financed Joint Action INTEGRATE** Symposium to be held on July 25@18.30-20.30h@RAI Amsterdam Convention center, Room Forum. The Symposium will run under the theme, '*HIV and co-infections in at-risk populations: Addressing cross border treatment needs and ensuring earlier diagnosis of migrants, the homeless, prisoners and other vulnerable populations.*'

The main aims for this symposium will be to **present** and **discuss** the current models of linkage-to-care and integrated testing approaches for HIV, viral hepatitis, TB and STIs that have been developed and implemented in the EU and its neighbouring countries.

What you can expect? We have some esteemed, international Researchers, Healthcare professionals, Advocates and regulatory Policy makers lined up as speakers, and the symposium will feature presentations and a Panel discussion with the audience offering YOU the opportunity to discuss, learn and get insight into how the EU can improve testing and the cascade of care for the identified vulnerable populations!
